FPLIP — Factory Performance & Loss Intelligence

Dashboard Overview: This dashboard visualizes OEE, loss attribution, and scrap root-cause analysis from the FPLIP Gold layer.

Data Source: fplip_gold.oee_daily and fplip_gold.scrap_root_cause_summary

Note: This dashboard is built with Apache Superset (self-hosted BI layer) — a deliberate substitution for Power BI, documented in ADR-009.

Average OEE

67.08%

Average Availability

87.02%

Average Performance

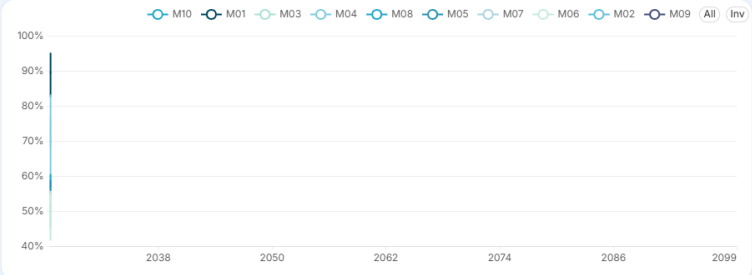

81.20%

Average Quality

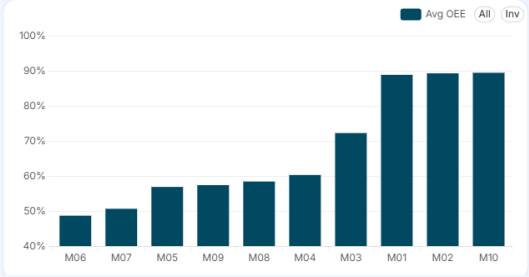

95.64%
